## Reason for Allowance

1. Claims 1-36 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The current application is concerned about locating a wireless station communicating with wireless LAN. The prior art of record Belcher et al. (US 6121926) and LeBlanc et al. (US 6236365) are in the same field of endeavor, e.g., Belcher et al. disclose radio location system using *time-of-arrival* differentiation for repetitive spread spectrum. However, the cited art, alone or in combination fails to disclose the unique method step of "processing communication signals from mobile device and <u>determining</u> which signals are *first-to-arrive* signals based on common timing signal and conducting differentiation of the *first-to-arrive* signals to locate the mobile device" Claims 1 19 and 27). The underlined unique method step renders the application claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
